

RESETTING THE STANDARD:

Impact of Advanced Heart Preservation on Program Growth

INDUSTRY SYMPOSIUM: Friday, April 21, 2023, 11:30 a.m. – 12:30 p.m.

This is an independent non-CME event and is not an official part of the ISHLT Annual Meeting and Scientific Sessions.

Real World Evidence and Latest Trends in Static Heart Preservation Collected from Over 1300 Patients in the GUARDIAN-Heart Registry

David D'Alessandro, MD Massachusetts General Hospital

From Heart to Heart: Consistent Outcomes Across the Donor Spectrum

Hannah Copeland, MD, MBA, CPE, FACS, FACC Lutheran Health

Moving the Needle: Driving Consistency with Advanced Heart Preservation to Achieve Program Goals

Nir Y. Uriel, MD New York-Presbyterian, Columbia University Irving Medical Center

OVERVIEW

Friday, April 21, 2023 | 11:30 a.m. – 12:30 p.m.
Room 501-504

Real World Evidence and Latest Trends in Static Heart Preservation Collected from Over 1300 Patients in the GUARDIAN-Heart Registry

David D'Alessandro, MD *Massachusetts General Hospital*

This session focuses on the use of real-world evidence to assess the latest findings on advanced heart preservation using data collected from over 1300 patients in the GUARDIAN-Heart Registry.

From Heart to Heart: Consistent Outcomes Across the Donor Spectrum

Hannah Copeland, MD, MBA, CPE, FACS, FACC *Lutheran Health*

This session assesses and compares the post-transplant outcomes of varied cohorts studied in the GUARDIAN-Heart Registry, noting common consistencies across different subpopulations.

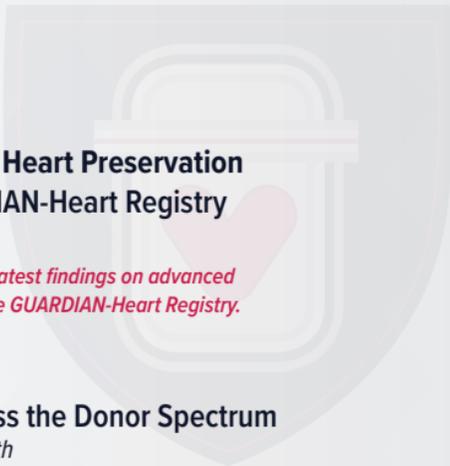

Moving the Needle: Driving Consistency with Advanced Heart Preservation to Achieve Program Goals

Nir Y. Uriel, MD *New York-Presbyterian, Columbia University Irving Medical Center*

This session analyzes a real-world case study that depicts how Columbia University Irving Medical Center leveraged the SherpaPak Cardiac Transport System as a program standardization tool.

This is an independent non-CME event and is not an official part of the ISHLT Annual Meeting and Scientific Sessions.
